Summary

Motivated commerce graduate with a newfound passion for programming. Completed a 6-month full-stack development course, specializing in MERN stack technologies. Gained hands-on experience through a 3-month internship, mastering HTML, CSS, JavaScript, React.js, Node.js, and MongoDB. Excited to utilize my diverse background and technical skills to pursue a rewarding career in software development and contribute to innovative projects.

Education Background

- SIES HIGH SCHOOL
  Secondary School Certificate (SSC)
  Percentage : 72.20%
  Completed in March 2018
- SIES College of Commerce & Economics
  Higher Secondary School Certificate (HSC)
  Percentage : 64.15%
  Completed in March 2020
- SIES College of Commerce & Economics
  Bachelor of Commerce (Degree)
  Percentage : 73.01%
  Completed in March 2023

Hard Skill

Programming Languages:
- HTML5
- CSS3
- JavaScript
- TypeScript
- Php

Frontend Development:
- React.js
- Bootstrap
- Material UI
- Vue.js

Backend Development:
- Node.js
- Express.js
- Laravel

Database Management:
- MongoDB
- MySql

Others:
- Microsoft Office
- Adobe Photoshop

Soft Skill

- Observation
- Team work
- Creativity
- Multi-tasking
- Self-Learning
- Leadership

Personal Details

Date of Birth	: 27 June 2002
Gender	: Male
Language	: Tamil, Hindi, English
Nationality	: India

Experience

Werqlabs Pvt. Ltd.

MERN Stack Intern

December 4, 2023 - March 5, 2024

Key responsibilities:

- Gained practical knowledge about business ethics
- In frontend technologies: HTML, CSS, JavaScript, TypeScript, Bootstrap, Material UI.
- Expertise in React.js for dynamic and interactive UIs.
- Backend development skills with Node.js and Express.js for RESTful APIs.
- NoSQL database management with MongoDB.
- Explored MERN stack libraries and frameworks for full-stack development.
- NoSQL database management with MongoDB, learning to design schemas, perform CRUD operations, and optimize database queries.
- Successfully completed two projects, Expense Tracker and Gift Management, within the internship duration, demonstrating adaptability and problem-solving skills.

Global E-Content

December 1, 2021 - June 10, 2022 (Full time)

Key responsibilities:

- Data research and analysis
- Exploring website for tenders
- Prepared reports through gathered informations

Ashok Enterprises

2017 - 2019 (Part time)

Home based work on school & colleges ID card making.

Key responsibilities:

- Data entry work on Corel draw and MS excel
- Student's photo editing on Photoshop

Certifications and Courses

Awdiz Institute

2023 - 2024 (6 months)

Key responsibilities:

- Completed a comprehensive 6-month Full Stack Developer training course covering frontend and backend technologies.
- Hands-on experience connecting React frontend to a NodeJS, Express & MongoDB backend by building real-world applications.
- Covered end-to-end framework for building dynamic web applications, from front-end to back-end and database.
- Participated in practical projects and assignments to reinforce learning and practical skills.

Projects

Expense Tracker:

- Developed an Expense Tracker web application to manage daily incomes and expenditures, facilitating effective money management.
- Implemented features to calculate and track financial transactions, providing insights into spending patterns and budgeting.
- Utilized HTML, CSS, JavaScript, TypeScript, React.js, Material UI, Node.js, Express.js and MongoDB to build the application.
- Incorporated Chart.js to visualize data with bar diagrams, enhancing user experience and data presentation.
- Ensured responsiveness across various devices and screen sizes for seamless user interaction.

Gift Management:

- Collaborated on a team project to develop a user-friendly web app for managing gifts between organizations.
- Used technologies like React.js, Node.js, MongoDB, and others for building and storing data.
- Frontend pages include login, dashboard, userlists, giftlists, organization lists, and nomination management.
- Backend APIs were created for user authentication, gift, organization, and nomination management.
- Demonstrated teamwork and coordination skills throughout the project lifecycle.
- Implemented form validation and utilized dynamic coding techniques to enhance code readability and maintainability.

E-Commerce Website Clones:

Websites: Youtube, Apple, H&M, Gap

- Replicated multiple e-commerce websites to create functional clones, demonstrating proficiency in web development and design.
- Developed clones of popular e-commerce platforms, ensuring accurate replication of features such as product listings, shopping carts, user authentication, and checkout processes.
- Utilized HTML, CSS, JavaScript, React and relevant frameworks/libraries to create responsive and visually appealing user interfaces.
- Implemented backend functionalities using technologies like Node.js, Express.js, and MongoDB to handle data storage, user sessions, and server-side logic.
- Leveraged attention to detail to ensure the accuracy and functionality of the cloned websites, enhancing understanding of industry-standard e-commerce practices.
